

Publications

- Shah SK, **Balasundaram N**, Clair DG. Advances in Embolic protection devices: Will improvements in EPD design lead to safer carotid artery stenting procedures? *Endovascular Today* 2011 suppl 9-12
- Joye Varghese S, **Naveen B** et al, Does autonomic dysfunction in cirrhosis liver influence variceal bleed? *Annals of Hepatology* 2007 6(2), April-June, 104-107
- Joye Varghese S, **Naveen B** et al, Can PaO₂ levels predict hepatopulmonary syndrome? *Indian Journal of Gastroenterology* 2005 25(2) A145
- Shang E, Miler R, **Balasundaram N**, Park WM. Gonadal vein transposition for the treatment of Nutcracker Syndrome. *Vascular and Endovascular Surgery Society*. Feb 3, 2017
- **Balasundaram N**, Miler R, Batagini N, Bena J, Smolock, C. The Identification of Aortoiliac and Femoral Arterial Disease: Use of CT Angiography with Advanced Image Processing vs. Conventional Angiography in Treatment Decision Making. *Society for Vascular Surgery*. Chicago, IL. July 17, 2015.
- **Balasundaram N**, Neumann D, Shin J et al. Hyperparathyroidism from Parathyroid Autotransplants in the Sternocleidomastoid Muscle: Clinical and Radiologic Findings for Contemporary Management. *ACS Chicago* Oct 2012
- **Balasundaram N**, Estrada-Trejo D, Ramirez-Gavidia JR. Trans rectal endoscopic drainage of intra-abdominal abscess. *SAGES Baltimore* April 2013
- **Balasundaram N**, Chowdhary P, Titus J, Jagannath A, Myers JL. (2009, June). Increased cardiac output and pulmonary impedance contribute in varying amounts to increased pulmonary arterial pressure in acutely hypoxic piglets, depending on the degree of hypoxia. 4th Annual MGH Research Celebration; Boston, MA.
- **Balasundaram N**, Chowdhary P, Titus J, Jagannath A, Carillo K, Myers JL. (2009, April). Rho-kinase inhibition abolishes the vasoconstrictor response to hypoxia in the infant piglet pulmonary arterial circulation. *FASEB 2009*; New Orleans, LA
