

Intensive Age Refining Treatment®: 0.5% pure retinol night

SKU: 21179

This advanced formulation time-releases potent ingredients deep into the skin over a period of ten hours through a patented OmniSome delivery system. Retinol, myristoyl nonapeptide-3 and orange stem cell extract help to minimize the appearance of fine lines and wrinkles while strengthening the skin. Niacinamide works to reduce age-related skin yellowing and increase hydration in conjunction with sodium hyaluronate, panthenol, oat kernel extract and isosorbide dicaprylate. A reduction in fine lines and wrinkles with an improved skin tone is the result of this advanced formulation.

Intensive Brightening Treatment: 0.5% pure retinol night

SKU: 21181

This advanced formulation delivers potent ingredients deep into the skin through a patented OmniSome delivery system. Retinol, niacinamide and hexylresorcinol help to produce radiance from within, while promoting an even skin tone. Additional actives smooth the skin's surface, while niacinamide minimizes redness and the yellowing of the complexion. An overall glow and even skin tone is the outcome with nightly use of this new, breakthrough retinol formulation.

Intensive Clarity Treatment®: 0.5% pure retinol night

SKU: 21180

This advanced formulation delivers potent ingredients deep into the skin through a patented OmniSome delivery system. Retinol and lilac leaf cell culture extract help to provide antioxidant protection and an even skin tone. 2% salicylic acid dramatically reduces acne breakouts. Additional ingredients including niacinamide, hexylresorcinol and ethyl linoleate help improve barrier function, calm the skin and reduce the keratinization that can result in breakouts. Clearer and healthier skin is the result of this breakthrough retinol formulation.

C-Quench® Antioxidant Serum

SKU: 21130

This exceptional antioxidant serum combines lilac leaf stem cell extract, resveratrol, glutathione, vitamin E, ergothioneine and other supportive antioxidants.

Facial Wash

SKU: 21101
