

# Lee Silverman voice treatment (LSVT) - BIG & LOUD

Provided by Mizzou Therapy Services

## LSVT BIG

LSVT BIG is used by occupational and physical therapists to promote high-amplitude movements in people with Parkinson's disease.

### LSVT BIG provides a number of benefits:

- Increased amplitude (trunk rotation) of limb and body movement
- Increased balance
- Increased stride length with bigger steps
- Improved flexibility
- Improve quality of life

## LSVT LOUD

LSVT LOUD is used by speech-language pathologists to facilitate awareness of vocal intensity in people with Parkinson's disease.

### LSVT LOUD provides a number of benefits:

- Increased breath support for voicing
- Increased volume for enhanced communication
- More precise speech
- Improve quality of life
